## CREATIVE DESIGNER

Hello! I'm Swe Hlaing Hnin, but you can just call me Swe (pronounced as Sway). A creative nerd with over 5 years of experience in the design industry, covering everything from traditional graphic design to photography, motion graphics, and video editing.

My journey into design started with a practical goal — chasing a solid income, driven by the need for financial stability. Little did I know that this initial pursuit would evolve into a deep passion for design.

I started my career as a graphic designer shortly after graduating from high school at the age of 17. I've had the opportunity to collaborate with notable brands such as **AVIS Car Rental**, **O.TWO.O Cosmetics**, and **MHMarkets**. Currently, I am employed remotely as the **Creative Lead** for a Singaporean company called "TDCreatives."

I see myself as a hardworking and reliable person, driven by passion and a perfectionist by nature. I thrive on challenges because, without them, where's the room for growth? Where's the excitement?

I've evolved from a money - driven start to someone who thrives on the creativity.

**Why don't we work together?**
